Beginning of pre-sale: 01.12.2019

End of pre-sale: 31.03.2020

DABtoken will be sent immediately to your ETH Wallet.

The funds will be used to purchase the equipment.

Mining “Assent Z” - it is a project offering to buy a share in the mining business and to receive an income every month as a co-owner of a large-scale project. Our company will accredit your dividends in accordance with the smart contract and your share in the project.

PROJECT OBJECTIVE

Our main objective - it is to offer our investors the most profitable way of lifetime earnings with “Assent Z” Mining and become co-owners of such a large-scale project.

We want to protect our investors from a routine work in a mining farm and propose joint business ownership of a mining farm in a cold mountain that will generate a steady income with a transparent revenue sharing system between the holders of our tokens (via a smart

contract) that will equally distribute the revenues from the mining the “Assent Z” farm in the correct ratio.

We can guarantee you a permanent income in the cryptocurrency every month and you will be able to profit from our project, as long as the equipment on our mining farm will last.

Each “Assent Z” project token gives the right to profit from the capacity of our farm perpetually, with a percentage, depending on the purchased part of DABtokens.

By purchasing the DABtoken, you acquire a share (stake) in the project and start earning profit.

Advantages

The mine will be built in the Republic of Bulgaria.

The state has the lowest cost of electricity from countries in the European Union.

The price per 1 kW of energy is only 0.10 EURO, which makes this mining farm very

profitable and allows to compete with other mining farms around the world without any problems.

No need for the construction of hangars or other structures.

Lack of rent and other costs because the building is our property.

Low number of mining farm staff. Low labor costs. In Bulgaria wages start with 270 euro.

In Bulgaria, a profit tax is 10 %.

Required equipment

Crypto mining farm “Assent Z” looking for funding to buy on:

two pieces:

ASRock H81	1
Nvidia GTX 1070TI	6
4GB RAM DDR4	1
1x 1200W + 1 400 -	
Intel Celeron G3900/G3930	1
ethOS	1
PCI risers	6

three pieces:

ASUS PRIME H270-PLUS	1
AMD Radeon RX570 4GB	8
4GB RAM DDR4	1
1x 1200W + 1 400 -	
Intel Celeron G3900/G3930	1
ethOS	1
PCI risers	8

Initially, 5 machines will be purchased to produce the currency Ethereum, Ethereum-Classic and Zcash.

Profit distribution:

20 % for reinvestment;

80 % for investors.

1 DABtoken = **0.00020** percent owned by the mine.
